

SLOT COVERS

Profiles made from gilded anodized aluminium with bevelled ends to make removal easier. They leave the table surface completely clear, thus simplifying chip removal, slot cleaning, lubricant flow and ensuring operator safety.

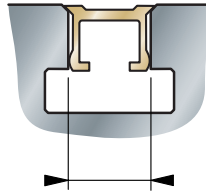

For horizontal and vertical T-slot tables

**HAVE YOU HEARD OF
KOPAL
SLOT COVERS ?**

The slot covers are available with or without drain holes, in packs of 5 x 400 mm segments or in 1 metre lengths for you to cut to size yourself.

i An identical profile for heavy users, non-anodized, without drain holes, with straight ends, is available in 2 metre lengths to be cut to size.

 Economical
